

SIBULELE MJAVU

Information Technology Graduate

+27 69 994 7924 | mjavusibulele@gmail.com

Fourways, Sandton, 2068 | Portfolio: mjavusibu.github.io/my-portfolio

PROFESSIONAL SUMMARY

Information Technology graduate with a strong foundation in Full-Stack development and experience building applications across mobile, web, and desktop platforms. My technical background spans C#, Dart, and Python, with a focus on delivering solutions that are both well-engineered and practical to use. Equipped with strong problem solving skills, a disciplined work ethic, and the ability to learn new systems and processes quickly. Experienced in building real-world software solutions and working collaboratively within team environments. Eager to bring fresh energy, technical ability, and a genuine commitment to growth to a structured workplace programme in the IT industry.

EDUCATION

Diploma in Information Technology

Central University of Technology | 2022 – 2025

- Achieved an 80%+ average across all final-year modules
- Key Coursework: Software Development, Technical Programming, Software Engineering
- Completed structured team and individual projects from planning through to delivery

SKILLS & COMPETENCIES

Technical Skills: Python, C#, Dart, Flutter, ASP.NET Core, MVC, HTML, CSS, Firebase, GitHub, MS Office Suite (Word, Excel, PowerPoint)

Analytical & Problem Solving: Data processing with Python (Pandas, NumPy), logical troubleshooting, structured debugging, root-cause analysis

Communication: Clear written and verbal communication in English; experienced in documentation and user-facing guides

Workplace Readiness: Time management, meeting deadlines, working under guidance, following structured processes

Collaboration: Proven ability to work in team environments, take direction, and contribute constructively to shared goals

Adaptability: Quick learner; comfortable picking up new tools, systems, and workflows in dynamic environments

TECHNICAL PROJECTS

Employee Verification System | *Flutter, Firebase*

- Built a mobile application to automate and secure employee identity verification in a real workplace setting
- Worked in a team from requirements through to a fully deployed, tested solution
- Gained hands-on experience with workplace systems, structured data management, and professional accountability

AI-Powered Mental Health Chatbot | *Python*

- Developed a Python application that uses Natural Language Processing to understand user input and provide relevant responses
- Tested, refined, and documented the system — demonstrating attention to detail and structured problem-solving
- Translated a complex technical solution into a user-friendly interface accessible to non-technical users

Campus Lost & Found Platform | *Flutter, Dart, Firebase*

- Designed and delivered a full platform for logging, searching, and managing records used by real students on campus
- Collaborated with users during testing to gather feedback and improve the experience iteratively
- Managed the full project lifecycle from concept and design through to deployment and documentation

Health Monitoring System | *ASP.NET Core MVC, C#, Firebase*

- Designed and developed a health monitoring system with dedicated patient, doctor, admin portals.
- Built to streamline healthcare workflows and give each user role exactly the access and tools they need.

CERTIFICATIONS & ACHIEVEMENTS

- Samsung Innovation Campus (2025) – Certified in Artificial Intelligence & Python Coding and Programming
- Cisco Networking Academy – Introduction to Data Science
- Cisco Networking Academy – Introduction to Modern AI
- Cisco Networking Academy – Python Essentials 1
- Cisco Networking Academy – IT Essentials (Hardware & Software Troubleshooting)
- Cisco Networking Academy – Introduction to Cybersecurity

PERSONAL ATTRIBUTES

- Punctual, professional, and committed to showing up consistently and delivering quality work
- Resilient and positive: able to handle constructive feedback and grow from it
- Genuinely curious about how industries and businesses operate, particularly in new sectors
- Motivated by purpose: I believe meaningful work experience is the foundation of a long-term career
